»SPUNTINI CRITICI«

The Italian Teenage Ambassador Group developed 'Spuntini Critici', a tool created to provide 'food for thought' and support the TEEN Project by engaging Teenagers in presentations and discussions of performances. These sessions are led by the Teenagers and involve Creative Professionals & Artists, Festival Delegates and the General Public.

Most importantly, it allows Creative Professionals & Artists to meaningfully listen and engage with the voices of Teenage audiences, giving them ideas for new artistic practices while enjoying an aperitif!

At the following links, you can see some video examples of 'Spuntini Critici' in action at the SEGNI New Generations Festival 2019:
